

Progressive Learning Ability Test

Dear students,

A Progressive Learning Ability Test (PLAT) is being conducted for some of our UG and PG first year students to assess their learning abilities. The PLAT is a type of test that measures a student's ability to learn and adapt to new information over time. It is a **standardized test** that is used to evaluate the learning ability of students in various fields such as education, mathematics, economics, science, psychology, business, media studies and human resources. The test is designed to assess a student's ability to learn new information and apply it to different situations. This test will help College to identify students who may need additional support in their learning process and to help educators develop effective teaching strategies.

UG Students offering environmental science course this semester (Even Semester of the AY 2023-24) from FYBA, FYBSc, FYBSc IT and FYBMS (B Division) are required to take this test.

MSc Part 1 (PG) students of Microbiology, Botany, and Life Science are required to take this test.

Date: 2nd Feb 2024

Time: 3 pm to 4 pm

Venue: LRs 11, 12, 41, 42, 43 and 44. The exact venue will be intimated to you later.

The abovementioned cohort is required to fill up the google form (Link below) to provide us the data required for the test. Please fill this at the latest by 24th January 2024.
