### Introduction:

NEP2020, or the National Education Policy 2020, is a comprehensive policy introduced by the Government of India to transform the education system in the country. It aims to bring about significant changes in various aspects of education, from school to higher education. If you are a prospective undergraduate student of St. Xavier's College, an Autonomous College affiliated to the University of Mumbai, you are advised to go through the Government of Maharashtra – GR dated 20<sup>th</sup> April 2023 for clarity on the various rules and regulations as recommended by the state department of Higher and Technical Education.

### Salient Features of NEP2020

The National Education Policy 2020 (NEP2020) in India brings several significant changes compared to the prevalent education policy at the time of its introduction. Here are some key differences between the prevalent education policy and NEP2020:

- **Multidisciplinary Approach:** NEP2020 promotes a multidisciplinary approach to education, encouraging students to choose subjects across different disciplines and bridging the gap between arts, sciences, and humanities.
- **Reduction in Content Overload:** NEP2020 emphasizes reducing the content overload in the curriculum to focus on core concepts and critical thinking rather than rote memorization.
- **Skill Development and Vocational Education:** NEP2020 places significant importance on skill development and vocational education, aiming to provide students with practical skills and promote entrepreneurship.
- **Assessment Reforms:** NEP2020 advocates for a shift in assessment methods, aiming to move away from high-stakes examinations and focus on a more comprehensive and holistic assessment of student understanding and skills.
- **Inclusion and Equity:** NEP2020 emphasizes inclusion and equity in education, aiming to address gender and social disparities, provide equal opportunities for marginalized communities, and promote inclusive education for students with disabilities.
- **Research and Innovation:** NEP2020 recognizes the importance of research and innovation in education, encouraging the establishment of research centers and promoting a culture of research among students and teachers.
- **Internationalization:** NEP2020 recognizes the significance of internationalization in education. It encourages collaborations and exchange programs between Indian and foreign institutions, promoting global exposure and cross-cultural learning.

Implementation: NEP2020 is being gradually implemented across educational institutions in India, including Mumbai University. All the proposed changes may take time to fully integrate, but the policy aims to create a more inclusive, flexible, and relevant education system.

### **Undergraduate Education at St. Xavier's College, under the aegis of NEP2020**

St. Xavier's College- Mumbai, is a Jesuit educational institution, established in 1869. Through its 154 years of existence, the college has been a major national contributor to capacity building. The list of illustrious alumni is long and the college takes pride in their achievements in the national as well as global social, cultural, industrial and science arenas.

Keeping the tenets and recommendations about the NEP2020 from the UGC, along with adhering to the directives from the Maharashtra State – Department of Higher and Technical Education, the college, with its more than 150 years of experience in the domain of higher education has prepared a comprehensive undergraduate and postgraduate curricular structure. This new structure also adheres to the key values of *Innovation, Integration, Inclusion*.

The framework of the choice-based credit system:

**Major Subject:** A single subject course of study pursued by a student as a mandatory requirement of the programme of study. Indian knowledge system (IKS) to be included in the core courses.

**Elective Course:** An elective course could be a project designed to acquire skills to supplement the major study.

**Minor Subject:** A second subject of study pursued by a student as an additional requirement of the programme of study.

**OE:** Open Elective - An elective course chosen generally from an unrelated discipline/subject, to seek multidisciplinary exposure.

**AEC:** Ability Enhancement Course - Mandatory Courses on content related to Language, and Literature (i) Compulsory – English communication (ii) Elective – any Indian language other than English.

**VSC:** Vocational Skill Course – Courses aimed at imparting practical skills, hands-on training, and soft skills to increase the employability of students. Specific or supporting the major subject is to be chosen from a basket/pool offered by the college.

**SEC:** Skill Enhancement Course – Courses aimed at imparting practical skills, hands-on training, and soft skills to increase students' employability. It could be chosen from a basket/pool offered by the college or a MOOC on Swayam or NPTEL platforms.

**On-Job Training(OJT)/Internship/Field Project (FP)/Community Engagement Programme (CEP) Research Project (RP):** Application of knowledge/concepts in solving or analyzing a real-life problem. All these are related to the major subject.

**CC:** Co-curricular Course – For the holistic development of students through Cultural activities such as performing art, visual art, NCC, NSS, Yoga, etc.

**VEC:** Value Education Course – Compulsory courses on (i) The Constitution of India and (ii) Environmental Education.

The tables below contain the planned quantum of courses that will be offered under the Arts, Science, and Commerce (grant-in-aid) programs starting from June 2023. The total credits that a student will collect in each semester is 22. This is as per the directives of Maharashtra State. A student is free to exit at the end of each academic year as depicted in the table below.

On successful completion of three years and obtaining 132 credits, a student can opt for an exit with a bachelor's degree in their domain, e.g., BSc/BA/B.Com. The student must have a minimum CGPA of 7.5, to be eligible to obtain an 'Honours' degree. They would need to complete the fourth year of the said programme and acquire 176 credits for a bachelor's degree with Honours. If a student opts for an Honours degree by Research, the eligibility criteria will be at the discretion of the College.
