

Online Certificate Program in Forensic Science, 2022

Department of Zoology and Forensic Science,
St. Xavier's College (Autonomous), Mumbai

❖ The Program

The online program has a primary objective to make quality forensic education easily accessible by:

- Facilitating distance learning for students interested in forensic science, living in different parts of India, with limited funds and / or access to good college level forensic programs.
- Providing students interested in careers in forensic science a basic understanding of crime scene related forensic science practice, while they are studying other subjects at the graduate / post graduate level.
- Familiarizing law enforcement professionals and law students with a basic understanding of forensic sciences, while allowing them the flexibility of a non-classroom teaching mode

❖ Course Content

- An Introduction to Forensic Science
 - Ethics and Research Methods
- Understanding the Indian Police and Legal System
- Crime Scene Processing & Investigation Techniques
 - Impression Evidence
- Biological Evidence - Types, Handling & Analysis
 - Forensic Toxicology & Medicine
 - Forensic Instrumentation
